Igniting the light of knowledge

Online Virtual Classroom - Commencing Saturday 5th September at 10:00AM

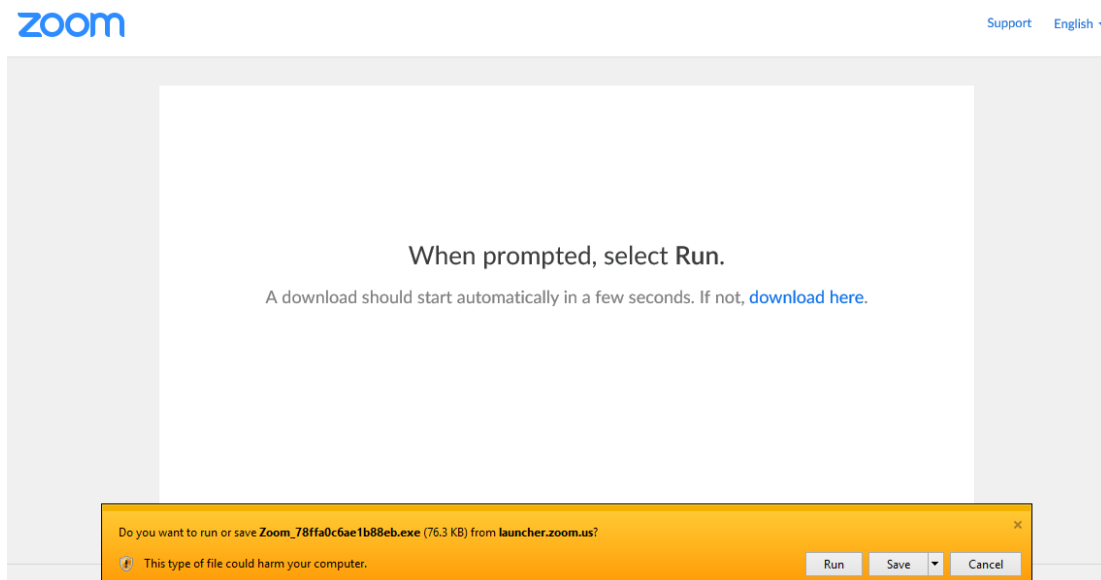

السلام عليكم

We will be recommencing our school this Saturday. Due to Covid-19 we will have online learning for older students of Class 3 and 4. Where students of class 1 or 2 are in class 3 or 4 for Islamic studies, the expectation is for them to use their personal handheld device at Hamptons where a room with supervision will be provided. A good quality headset is a must.

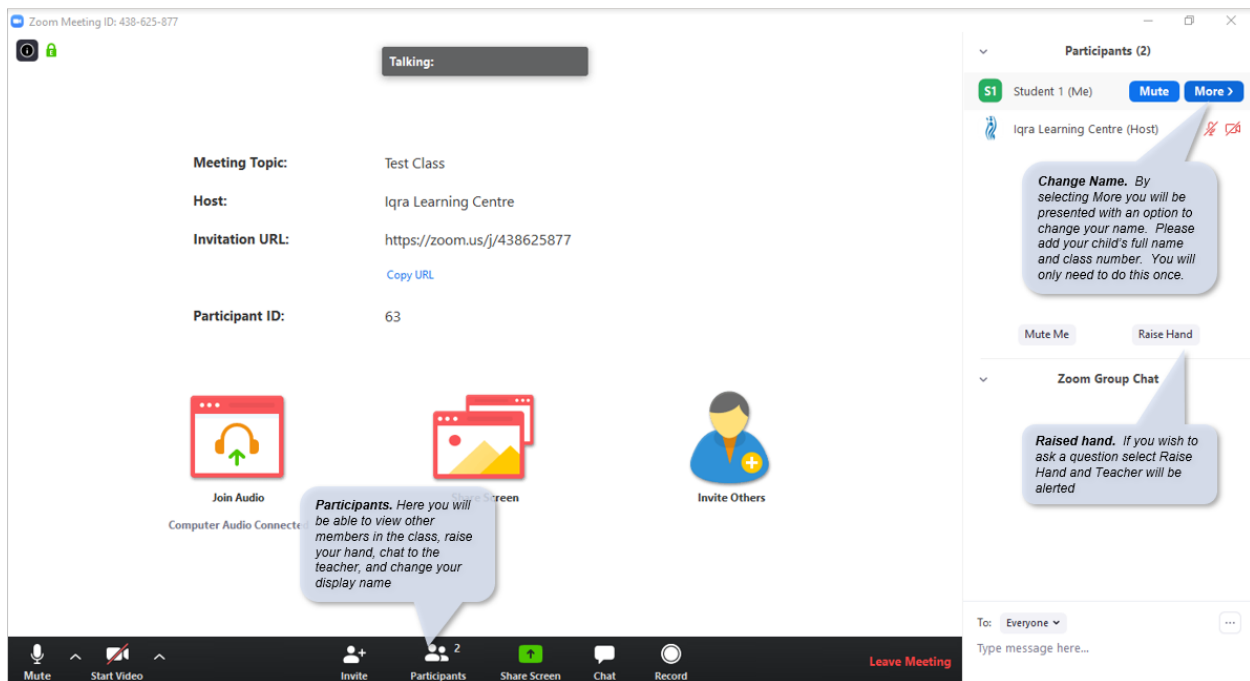

Zoom Virtual Classroom

As advised, we will be using the e-learning platform called Zoom which is being used by many madrasas and maktabas around the world. It can be used on any device; PC, Mac, IOS or Android, but it would be best if you do not use a mobile phone. You are requested to ensure headsets are used to maintain good sound quality. To ensure best quality please sit your child near your router if using WiFi and away from other family members and back ground noise where possible. We look to you to ensure your child is focused on the learning and behaving well as it is impossible to do this remotely.

You will be provided with a link via Whatsapp for your child's class similar to: <https://zoom.us/j/038625877>. Once selected you will be presented with the following screen asking you to download an add-on to run the meeting. Select Run.

You will then be asked for your name. Please enter your child's full name and their class number e.g. Ayesha Hussain Class 4 (where known). After which you will enter in to the classroom as per below diagram. If you have previously used Zoom or were not asked for your name, please update it via Participants and More on the Left-hand screen. Please ensure you connect before 10AM. We will have the classroom open from 9:30AM.

Classroom Etiquettes

All participants must be on mute and a reminder a **headset\headphones must be used**. Students will be unable to interact with their peers and the teacher without one. The teacher will unmute children as and when required. If a child has a question, they can select the Raise Hand option (as per above diagram). Please ensure your child is dressed appropriately for a learning environment. This will help facilitate the learning.

Support

If you require any technical support, please call the number 07958 336 529 and we will do our best to help.
